BIOCHEMISTRY AND CELL BIOLOGY/ BIOCHIMIE ET BIOLOGIE CELLULAIRE
VOLUME 67 (1989)
SUBJECT INDEX/INDEX DES MATIÈRES

Acetate Schizosaccharomyces lipid protein formation 464
Acetone butanol fermn Clostridium pyruvate 735
Acetylated microtubule vimentin neuron differentiation 537
Acetylcholinesterase erythrocyte membrane polyoxyethylene detergent 137
Acetylcholinesterase mol form liver distribution purifn 817
Acetylcholinesterase sulfhydryl detn mercuric dansylcysteine 337
Actin interaction phospholipid membrane 297
Active site acyl CoA reductase cerulenin 163
Active site citrate synthase carbonyl polarization 98
Acyl CoA reductase cerulenin Photobacterium 163
Acyltransferase cholesterol intestine development chicken 93
Acyltransferase glycerol phosphate adipose inactivation ATP 48
Acyltransferase lecithin cholesterol lipoprotein neutral lipid 358
Adenylate cyclase glucagon lipoprotein assocd inhibitor 759
Adenylate kinase conformation nucleotide Escherichia 327
Adipocyte high density apolipoprotein metab 428
Adipose glycerol phosphate acyltransferase inactivation ATP 48
Adipose uncoupling protein mRNA cold 147
Affinity chromatog pertussis toxin purifn 387
Alfalfa root nodule asparagine synthetase 455
Alk phosphatase Dictyostelium carbohydrate binding protein 246
Amino group detn protein reagent 63
Antibody monoclonal flavonol glucosyltransferase 210
Antibody monoclonal lymphocyte phytohemagglutinin receptor 224
Antigen lipopolysaccharide structure Salmonella 78
Antigen nuclear localization mouse 3T3 fibroblast 563
Antigen O polysaccharide structure Salmonella 278
Aorta endothelium purine metab 8
Aorta wound microfilament rabbit endothelial cell 553
Apolipoprotein high density metab adipocyte 428
Arginine active site citrate synthase mechanism 98
Asparagine synthetase root nodule alfalfa 455
Aspartate transcarbamylase salt halophilic eubacteria 666
Aspergillus glucose oxidase oligosaccharide function 460
ATP inactivation glycerol phosphate acyltransferase adipose 48
ATP requirement chromatin nucleosome assembly 443
ATP thymocyte membrane permeability 495
ATPase cholesterol membrane brain synaptosome 16
ATPase erythrocyte membrane polyoxyethylene detergent 137
ATPase evolution vacuole 306
Auger electron indium 111 cell nucleus 661
